

Gooseneck Service body

Catalog

2024

1

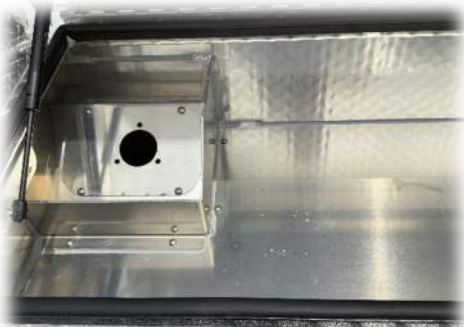

The Martin EcoMax Gooseneck service body is designed for continuous hard work and comes with standard features that exceed expectations. What separates this body from the competition is the structure, it has extruded 3/16 grooved floor with crossmembers every 8" and the boxes are made from 1/8 aluminum sheeting welded together and sealed with truck body caulk. The doors are bolted together so there are no weld marks on the outside, they come with compression latches and automotive bulb seals, producing the most watertight compartments available. The whale tail door latches are rivet-less for added protection. All compartments incorporate nitrogen gas springs.

With a universal mounting kit and plug-and-play wiring, this is an all-aluminum service body that installs easily and works hard everywhere.

standard features

- Headboard with stop-turn lights (all lights are LED)
- 3 sealed compartments per side
- Front tall compartments have 2 adjustable shelves with dividers.
- Heavy slam latch tailgate with stainless steel lock rods
- Diamond plate step bumper with LED lights
- 6061 Extruded grooved floor planks
- Gooseneck access lid
- 4 recessed D-rings in the floor
- Martin's universal mounting for bed delete trucks or 4" long rail with poly for cab & chassis trucks.
- 3-year warranty on materials and workmanship, 1 year on components such as latches and lights
